DETAILED ACTION

Claims 102-107, 110-112, 114-115, and 121-132 are pending in this application.

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on August 13, 2003 has been entered.

Claim Rejections - 35 USC § 112

1. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

2. Claims 102-107, 110-112, 114-115, and 121-132 are rejected under 35 U.S.C. 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. In an effort to overcome the 102 and 103 rejection, applicants have added a proviso in claim 1. The provisos lack description. Even negative limitations require a description. The MPEP at 2173.05(I) Negative Limitation states "Any negative limitation or exclusionary proviso must have basis in the original

Art Unit: 1624

disclosure. See *Ex parte Grasselli*, 231 USPQ 393 (Bd. App. 1983) *aff'd mem.*, 738 F. 2d 453 (Fed. Cir. 1984)" and further, "Any claim containing a negative limitation which does not have basis in the original disclosure should be rejected under 35 U.S.C. 112, first paragraph as failing to comply with the written description requirement." in the instant case, the new concept that has been introduced by the proviso is the specific relationships between R1, R2, R3, R4, R5, R6 and -X-Y-A-Z. This specific relationship of connectivity was previously not disclosed. This notion that the definition of one variable depends on the definitions of other variables is new. The definition of a variable is no longer independent.

Claim Rejections - 35 USC § 102

Claims 102-105 are rejected under 35 U.S.C 102(b) as being anticipated by Stocker et al., Chem Abstract 112: 216653. The instantly claimed compounds read on the reference compound, see the enclosed copy of CAPLUS computer search report and the compounds having RN 126036-49-5.

Rejection of claims under 35 USC 102(b) as being anticipated by Arcari et al. is hereby withdrawn in view of the proviso inserted in claim 102.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Art Unit: 1624

Claim 107 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claim 107 recites the limitation "cycloalkenyl" in Z. There is insufficient antecedent basis for this limitation in the claim.

The rejections under 35 U.S.C. 112, second paragraph, in the previous office action are hereby withdrawn in view of the amendments.

Any inquiry concerning this communication should be directed to Examiner Hong Liu whose telephone number is (703) 306-5814. The examiner can normally be reached on Monday through Friday from 8:30 AM to 6:00 PM.
